

Sales Engineers: Ferrell-Ross Roll Manufacturing, Inc. process equipment manufacturer, dealer and service provider serving the feed, seed and grain industries. We are seeking a sales engineer with a focus on the Seed and Grain industry to join our sales staff. All candidates with solid experience in the Agricultural Process Equipment Industry will be considered. An Agricultural Technology degree is preferred but all candidates with a working knowledge of seed and grain processing, process equipment such as Air Screen Cleaners, Gravity Tables, Conveyers, Bucket Elevators, Scalpers, Sizers and Materials Separation Technologies in general will be considered. Sales experience, quotation writing, systems knowledge and layout experience is a plus.

This is a salaried sales position. Extensive travel is required. Candidate will be articulate and capable of making presentations to industry professionals and at Trade Shows and Seed Schools. Computer savvy and proficiency using Microsoft Office software is required.

Ferrell-Ross Roll Manufacturing provides a competitive compensation package which includes health and 401K retirement benefits, Life Insurance and vacation time. Applicants living in Texas, Oklahoma or Kansas are preferred. For consideration, please send your resume in confidence to the attention of Mr. David Ibach at dibach@ferrellross.com
