

**Technical Field Sales Representative:** Position requires mechanical aptitude with knowledge of process machinery, materials handling equipment and power transmission components. Good analytical skills, interpersonal skills, written and verbal communications capabilities and mathematical abilities are a must. Proficiency with Microsoft Office products, such as Word, Excel, PowerPoint and others are required.

Candidate must exhibit a knack for planning and executing plans. Documentation of customer needs, note taking of discussions, and follow up competence is very important. The position requires a willingness to travel. The abilities to access and precisely measure processes and equipment, and to produce basic layouts and fundamental mechanical drawings, either by hand and/or by use of CAD software are critical.

A degree in engineering technology, agricultural sciences, or business, along with experience in the field of equipment sales and service is desirable. A working knowledge of feed, grain, and food processing machinery, conveyance equipment, size reduction equipment, commodities storage, and grain conditioning equipment is a definite plus.

The position offers a competitive salary based upon capabilities and experience. Excellent employee benefits, 401k, health and life insurance, paid vacation are also provided. The candidate selected will be supplied with a company vehicle, cell phone, laptop computer, and work-related travel expenses.
